TRANSPORT RULES & REGULATIONS**Dear Parents,**

The transportation system for the school has been painstakingly designed such that it covers the entire city in the shortest possible time. To be able to adjust this for such a large number of students, we have to design routes such that there is an exact fit of the number of seats to the number of students in a given route. Many times, to be able to accommodate students, we have to juggle with routes and thus cause slightly longer routes, and thus timings and trouble, for a set of stops which could have been done away with if the distributions were different. Having said the above, we would like to add that in case a parent opts for bus facility and makes any withdrawals mid-session, it creates a lopsided route and troubles others. Also, the fees for the bus have been divided into twelve portions ONLY for the sake of convenience to pay and are NOT fees for twelve months of transportation. A parent has the liberty to pay the whole bus fees in one stroke also.

It is deemed that the student continues an opted bus facility for the entire session. Buses are fixed according to the number of children. For example, a particular size of bus is engaged in a route that has the required strength. Thus, requests for new routes or pick/drop points other than our existing route will not be permitted during the session. It will be binding on parents to remit the full year's transport fee in case of withdrawal of transportation during mid-session as a seat for the student has been reserved once he/she opts for the same, thereby voiding another student of the convenience.

The management reserves the right to modify, terminate, or commence a new route or take any decision in the interest of the institution without prior consent. In light of the above, we hereby request you to consider the matter with seriousness prior to consenting to avail the transportation facility.

We earnestly solicit your cooperation.

Warm Regards,

Principal
